Experience

ATRA | Head of Data Dec 2025 - current

- Senior Data Engineering Specialist at ATRA, designing and delivering scalable Big Data solutions on GCP. Strong focus on dbt best practices, BigQuery optimization, and Airflow (Composer) orchestration. Act as technical advisor, defining reference architectures, mentoring teams, and ensuring performance, cost efficiency, and sustainability.

VMBears | Tech Leader Data Jul 2025 - Dec 2025

- At VMBears, I led a high-impact Big Data transformation for CCEE, coordinating cross-functional teams and cloud vendors (AWS/GCP). I drove the POC execution, defined the target cloud data architecture, replaced a legacy Oracle-based solution, and enabled a scalable, cost-efficient Big Data platform through technical leadership and mentorship.

Amaris | Tech Leader Data Apr 2020 - Aug 2025

- Senior Data Engineer promoted to Tech Lead at Amaris Consulting, leading multicloud (AWS, GCP) data solutions, modernizing pipelines, improving data quality, and optimizing workflows to drive business impact.

Projects

2021 **Renault Tech Park**

Designed a Hub-and-Spoke data architecture, structuring satellites and standardizing enterprise data platforms to enable scalable and governed analytics.

2025 **CCEE Big Data POC**

Led a 30+ engineer team in a strategic Big Data POC, coordinating vendors and defining the target cloud architecture to replace a legacy PL/SQL ecosystem.

2025 **Carrefour Group**

Established enterprise DBT standards, reference architectures, and best practices, leading teams to deliver scalable, high-quality analytical assets.

Education

IFTM

Computer Engineering

2014-2020

Cruzeiro do Sul

Postgraduate degree in Data Architecture

2026 - current
